MATTHEW HOLLINDEN

SOFTWARE PRODUCT & PROGRAM LEADER | WEB & MOBILE OPERATIONS

Louisville, KY | 502.432.0891 | matthollinden@gmail.com | LinkedIn

PROFESSIONAL EXPERIENCE

PRINCIPAL PROGRAM MANAGER | April 2025 – Present

GE Appliances, a Haier company | Louisville, KY

- Owned the product vision, strategy, and roadmap for GE Appliances' delivery and installation platform across 111 delivery agents, using installer ride-alongs and frontline feedback to identify customer needs and prioritize improvements.
- Translated customer needs into product requirements, user stories, and acceptance criteria; partner with Digital Technology to prioritize the backlog based on customer impact, operational value, and technical feasibility
- Partnered with Digital Technology to design workflows and integrations across Salesforce, Oracle EBS, Medallia, and Oracle Transportation Management, connecting customer communications with field and operational processes.
- Defined the MVP and success measures for delivery completion, installation quality, customer experience, and adoption; coordinated UAT, training, and launch readiness for phased deployment across 5% of the delivery network.

SENIOR LOGISTICS PROGRAM ANALYST | November 2023 – April 2025

GE Appliances, a Haier company | Louisville, KY

- Owned the customer communication strategy for the Salesforce transition, defining customer touchpoints, SMS triggers, and messaging workflows throughout the final-mile delivery experience.
- Led the design, testing, launch, and continuous improvement of mobile and web workflows used by frontline delivery teams, incorporating field feedback to improve usability, launch readiness, and adoption across the final-mile network.
- Designed two major mobile/web process improvements: automated replacement-order creation for damaged units (reducing average replacement time from 7 to 3 days) and structured capture of living-unit information for multi-family deliveries (improving warranty record keeping for job supervisors).
- Served as business SME and liaison between final-mile operations and Digital Technology, coordinating resolution of 25+ production application issues and using an AI agent to analyze user error logs, identify bugs, and document findings.

SENIOR MATERIAL FLOW ANALYST | August 2021 – November 2023

GE Appliances, a Haier company | Louisville, KY

- Led the physical and technology-enabled design and implementation of an $8M warehouse transformation, defining facility layout, racking, lift-truck requirements, and scanner-based inventory processes while managing contractors through installation.
- Developed and executed the warehouse launch and operational cutover, transitioning material flow while maintaining production continuity and achieving 98% inventory accuracy and less than 0.5% lost production starts during the first two weeks.

MATERIAL FLOW SPECIALIST | July 2020 – August 2021

GE Appliances, a Haier company | Louisville, KY

- Led material flow planning and execution for a two-phase NPI, developing packaging plans, delivery routes, and mobile equipment requirements; launched with less than 0.5% of production starts lost to materials issues.
- Expanded the material flow strategy for a subsequent three-phase NPI, coordinating multiple production transitions and applying lessons from the initial launch to support increasingly complex manufacturing requirements.

SUPPLY CHAIN DEVELOPMENT PROGRAM | July 2018 – July 2020

GE Appliances, a Haier company | Louisville, KY

- Rotation One (Process Improvement Engineer in Decatur, AL) – Obtained Green Belt Certification in Lean Six Sigma with quality project.
- Rotation Two (Receiving Improvement Specialist in Louisville, KY) – Improved end-to-end paperwork flow from shipment to receipt.
- Rotation Three (Production Supervisor in Louisville, KY) – Supervised 40 employees with increased assembly and first pass yield monthly.
- Rotation Four (Service Parts Supply Chain Leader in Jeffersonville, IN) – Scoped and installed packing equipment to improve throughput.

EDUCATION

Master of Business Administration

University of Louisville | May 2022 | GPA: 4.0

Bachelor of Science in Materials Science and Engineering

University of Kentucky | May 2018 | GPA: 3.92
